

End of Availability for Cobalto™ Scanners

Effective June 28, 2019, the Cobalto family of presentation scanners will no longer be available for sale. Orders placed before June 28th can be shipped in Q3 2019. Last shipments will occur on September 30, 2019. Datalogic will continue to service Cobalto scanners until September 30, 2024.

Replacement Product

We recommend replacing Cobalto with one of our other presentation scanners, the Gryphon™ GPS44XX, Magellan™ 1100i or Magellan 800i. For 1D and 2D bar code scanning, cell phone reading and high throughput, our imaging presentation scanners provide unmatched performance in a wide variety of form factors to suit your application.
